About Me

My Background

I really want a long bike tour, with all the camping open along the way. But we will have that and this kind of thing going on, after the enemy is all driven out

of this country or destroyed. Published, U.S. Military and Police Intelligence know my leadership plans in detail, all the way until my server took mrinbetween.com off the Internet on July 1, 2020. Debt Default for Police and Military, no other solution than leerharrison.com racism. Where Congress ignores me as The Third Party with the Default Vote Majority of eligible vote; Write me In "Vote" The Confederate Party

My Hobbies

Over there is Sears Tower I visited once, on a day off from working the seats with the circus in town. My friends were with me, we got a good look over the area from there. Visiting the bars was the thing to do & having fun all the time, except during the shows. When I had to keep ahead of the competition. Everyone knew I hated blacks. I planned on writing about it until I finally got done and have a large web site offline to pack with me, to get published through a barrier to where it counts.

My Favorite Things

I really want to get away to where I can hunt and have big all night campfires and make big noise blasting away where I will not offend anyone's ears, that helps keep the bears away. But the big thrill is in the desert this Fall, unless there is a National Debt Default before the Election in November I wind up becoming a dictator. So I can hang the system to begin a Third U.S. Government run by the people in Tribunal.
